Description

Gait Kits – designed to assist your practice in performing Gait Analysis for your clients.

© 2010 Medical Motion, Inc. All rights reserved. Medical Motion is a registered trademark of Medical Motion, Inc. Pro-Trainer is a registered trademark of Medical Motion, Inc. Running Gait Analysis is a registered trademark of Medical Motion, Inc. All other trademarks are the property of their respective owners.

Running Gait Analysis Program DVD has been created to provide the tools and information needed to conduct a detailed assessment of the running stride. For full information, and a Virtual Tour of the DVD, - [CLICK HERE!](#)

Gait Analysis Kits

Reflective Markers Kit – used for accurate measurement of joints and limb positions; better visualization of body segment rotations. Includes reusable spherical markers; double-sided adhesive stickers and Marker Placement Guide.

Calibration Chart – Base Kit includes the Wall Calibration Chart (select from Blue or Grey background). **Replace it with the Portable Calibration Chart** as an option. For maximum efficiency, we recommend two (2) charts (for recording from the side and the back).

Calibration Chart includes your logo, at no additional charge, great for marketing your facility.
